DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-27 are allowed.
3. The following is an examiner's statement of reasons for allowance: Prior art of record do not teach or suggest the claimed liquid drop discharger, method of discharging a liquid drop, a test chip processor, method of processing a test chip, a printer, a method of printing, method of producing an electroluminescent panel, a method of forming conductive pattern, a method of producing a field emission display using a liquid drop discharger having the structures recited in the claims. Such structure would ease the maintenance of the liquid drop discharger.

In the liquid drop discharger having the claimed structure, by a change in the magnetic field that is generated by a coil, induced current is generated at the peripheral member of the moving section (see definition at page 9, lines 11-13). The induced current and the magnetic field interact with each other, thereby moving the peripheral member of the moving section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan H. Tran whose telephone number is (571) 272-2261. The examiner can normally be reached on at work on W-F from 6:30 to 5; T are telework days.
